

## Why Safety?

# Safety is the Backbone of a Strong EHS Program

Democratize safety

Drive accountability

## How do you get ahead and make real improvements to safety when you're fighting fires and playing catch-up, and you simply can't be everywhere at once?

When you're managing safety, it's easy to feel like you're going it alone. Worse, if resource constrained, you may feel like you need to choose between critical safety tasks.

**VelocityEHS Safety** makes safety and preventive measures everyone's responsibility, so you're not alone. With visibility across tasks, and expert data-driven insights, your team will go from reactive to proactive, and get focused on continuous improvement.

"It's so much smoother than what we had before...The solutions have tools built in that allow for email notifications, so everyone stays connected. Document uploading is easy, and so are reports... now I can slice the pie pretty much any way I want."

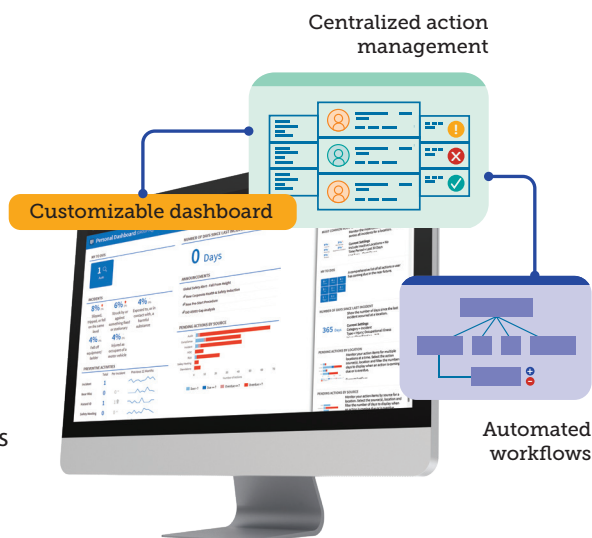

*Scott Marker*

*Compliance Administrator, J-Wood Pipeline Services*

## See What VelocityEHS Can Do for You

### Core Capabilities:

- + Incident management
