

Why Control of Work?

Stay in Control of Your Permits & Contractors

Ensure contractor compliance

Reduce organizational risk

How do you ensure proper vetting of all visitors when issuing 10-60 (or more) permits daily? Without the appropriate cloud solution, crucial tasks are overlooked, heightening risk and noncompliance.

Contractors working on site leave your company vulnerable, especially if you're still using manual processes to check vendor qualifications, administer training and issue permits.

VelocityEHS Control of Work makes it easy to confirm permit work is completed in a safe and compliant manner, and that no unqualified contractors are working on site. Protect your employees, reduce risk, and increase visibility for everyone.

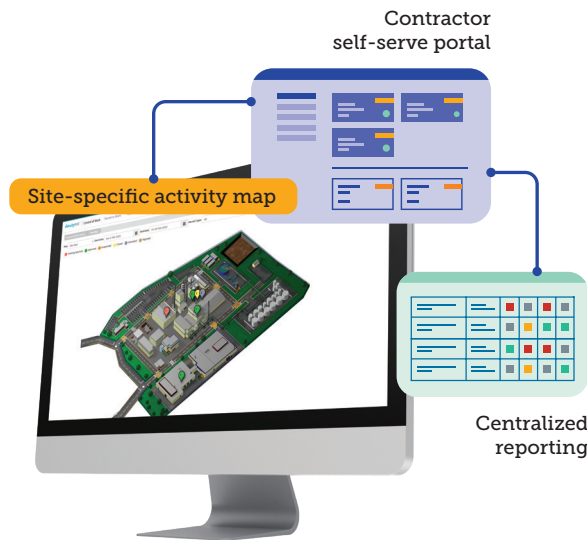

"The VelocityEHS team was determined to ensure the best system be implemented, allowing maximum flexibility for future improvements when required. I can confidently endorse VelocityEHS and the work they have done."

*Dan Donovan
Technical Services Leader, DePuy*

See What VelocityEHS Can Do for You

Core Capabilities:

- + Electronic permit-to-work
- + Contractor management
- + Contractor self-serve portal
- + Qualification management
- + Visitor management
