

PREVENTING WORKPLACE INCIDENTS IS EVERYONE'S JOB.

A comprehensive cloud software solution to help you prevent incidents and control risk through greater visibility of your incident data.

Core Capabilities

- Incidents
- Near Misses/Hits
- Hazard Identification
- Root-Cause Analysis
- Corrective Actions
- Reporting & Trend Analysis

Incident Management Made Easy

As an EHS professional, you can't afford to simply react to workplace injuries and illnesses — you need to anticipate and prevent them before they occur. That means having an incident management solution that is quick and easy to implement, simple to use, and gives you the right information you need to make informed decisions.

The *VelocityEHS* Incident Management product delivers a cost-effective way to report, manage, analyze and ultimately prevent workplace incidents. You can track everything from near misses, hits and hazards to motor vehicle accidents and chemical spills. Save time by centralizing all of your incident case records and supporting investigation information into one, easy-to-use system.

The key is simplicity. Our intuitive design, in-product coaching, and online and offline mobile capabilities make it easy for your employees to capture incident data anytime and anywhere. You get better data and the ability to implement corrective actions, conduct trend analysis, and complete regulatory and internal reporting requirements. Move at a speed that improves your EHS performance.

You Can't Be Everywhere at Once

You're expected to know everything that happens in your organization. You are accountable for recording and tracking incidents, ensuring corrective actions are taken, and that each facility is in compliance with applicable regulations (e.g., OSHA, WCB, RIDDOR, WHS). It's a formidable task.

Our Incident Management product helps ease the burden by helping you share the work with all of your employees. There are no individual licenses, so it's easy to deploy companywide. Now, operations-level users can easily report on incidents and near misses, and conduct comprehensive safety risk assessments and reviews.

By providing users with the ability to easily view relevant EHS information across an organization, risk management becomes centralized and simple – and you get time to focus on other important business and life objectives.

The *VelocityEHS* Platform

VelocityEHS Incident Management makes it easy for you to report on events of all types, manage corrective actions, and control risks by focusing on prevention.

Features & Benefits

Track All Types of Incidents

- Record injuries and illnesses in a single system
- Configure forms and workflows
- Report near misses, hits and hazards
- Record environmental releases
- Generate regulatory documents (OSHA forms 300, 300A, 301)

Manage Corrective Actions

- Perform risk and root-cause analysis
- Track corrective action assignments
- Set up escalating email notifications for missed deadlines

Reporting & Analytics

- Identify trends and contributing factors with extensive and flexible reporting
- Track engagement and leading indicators
- Analyze data and demonstrate opportunities for prevention
- Configure reports and dashboards

The VelocityEHS Advantage

A True Cloud Solution

Our Incident Management solution can be accessed anywhere, anytime, from any mobile device — and our growing list of mobile apps gives you the flexibility to deploy our solutions even when you're offline.

Helping You Be Better

Eliminate the day-to-day burdens associated with incident tracking and corrective actions, so you can focus on being a more effective EHS leader.

Delivering Value

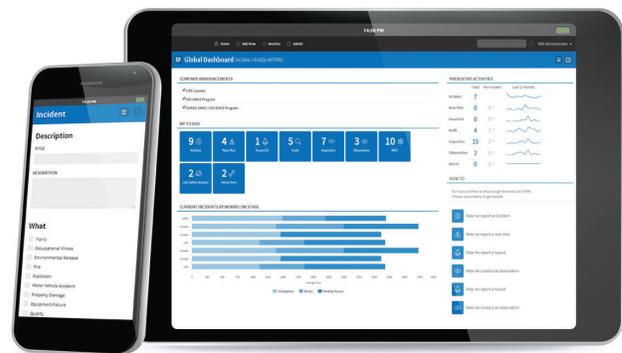

Designed with continuous feedback and industry insights from customers like you, our solutions are more affordable, quicker and easier to implement, and provide the simplest user experience for you and your employees.

Solving Complex Problems Simply

Our simple design and intuitive user interface means that you spend less time using the software, and more time focusing on the overall safety of your facilities and your employees.

Providing Personalized Service and Support

Our Incident Management solution is backed by our expert team of Customer Success professionals, who will give you the individual attention you need to help reach your EHS goals faster.

Well-designed and intuitive solutions that are available across any device via the cloud give you and your employees anytime, anywhere access to the VelocityEHS platform.
