

## THE BEST EHS MOBILE EXPERIENCE

**VelocityEHS has combined years of industry expertise and customer insights to design a simple and streamlined mobile experience that gives you anytime, anywhere access to the industry's best EHS management capabilities.**

### Core Capabilities

- Incident Management
- Risk Analysis
- Offline Incident Reporting
- Safety Meetings
- Audits & Inspections
- Corrective Actions
- Management of Change (MOC)
- Mobile Dashboards

### Mobile EHS Made Easy

VelocityEHS is committed to giving you the simplest, fastest and most engaging solutions to your EHS management challenges. Our dedication to creating the most powerful features and best user experience is what drives us to continue developing innovative EHS software products.

Other EHS software companies offer mobile functionality, but VelocityEHS has gone above and beyond to design a responsive and intuitive mobile interface that provides more than just remote access to our industry-leading EHS management capabilities — it offers an immersive mobile experience that achieves greater levels of employee engagement with your EHS management programs.

The VelocityEHS Mobile Experience enhances the visibility and control of EHS performance across your entire enterprise, while empowering employees to play a greater role in managing EHS risks. Having comprehensive EHS management capabilities in the palm of your hand makes your job easier, and helps you create a safer, more sustainable workplace.

### The VelocityEHS Mobile App

Creating a safer workplace requires rapid response to incidents, near-hits and hazards so they can be prevented before they happen again. But you work in the real world and don't always have access to a computer, or even access to the internet in order to document incidents, report hazards, and initiate corrective actions.

The VelocityEHS Mobile App now gives you the ability to perform all of your incident reporting, hazard identification, inspections and observations, and corrective action assignments right from your mobile device in just a few quick and easy steps, even when you're offline.

Giving your employees the ability to record important EHS information with a simple and engaging tool whenever and wherever they need it means you get better, more reliable data to drive greater EHS performance.

### The VelocityEHS Platform

Check out all of our EHS management products, including:

VelocityEHS has taken our award-winning EHS management solution and tailored it to your mobile device, giving you access to the EHS management capabilities you need when you're in the field or on the go.

### Features & Benefits

- Access your VelocityEHS account from your tablet or smartphone and provide your employees with fast, easy access to powerful EHS management tools
- Use your device's built-in camera and voice-to-text features to quickly capture and record information
- Record incident & near miss data, and perform hazard IDs, inspections and observations even when you're offline
- Conduct audits, inspections and observations, with access to all of the checklists and notification settings used in your platform account
- Perform JSAs, HAZOPs, and Aspects & Impacts Analysis in the field
- Manage corrective actions
- Submit, edit and manage MOC requests including approvals, action items, and status notifications
- View and update safety meeting information including schedules, topics & agendas, action items and notifications
- Access your VelocityEHS Dashboards to view pending action items, announcements, and key EHS metrics

### The VelocityEHS Advantage:

#### True Cloud Solution

The VelocityEHS platform can be accessed anywhere, anytime, from any mobile device and our growing list of mobile apps gives you the flexibility to deploy our solutions even when you're offline.

#### Helping You Be Better

Faster, easier access to your EHS management software enhances employee engagement with your EHS management programs, and saves you time and effort in collecting high-quality data and EHS metrics.

#### Delivering Value

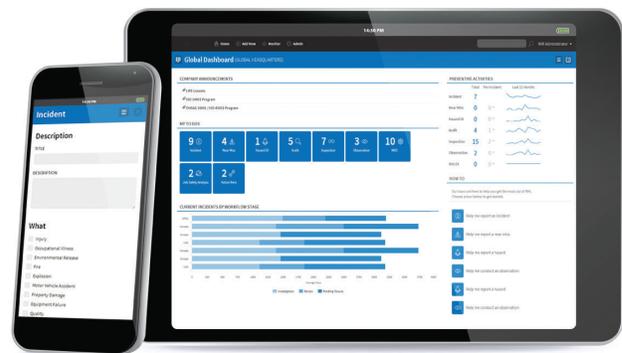

Designed with continuous feedback and industry insights from customers like you, our solutions are more affordable, quicker and easier to implement, and provide the simplest user experience for you and your employees.

#### Solving Complex Problems Simply

Our simple design and intuitive user-interface means that you spend less time using the software, and more time focusing on the overall safety of your facilities and your employees.

#### Providing Personalized Service and Support

VelocityEHS solutions, including our mobile platform interface and VelocityEHS App, are backed by our expert team of Customer Success professionals who'll give you and your employees the help you need to reach your EHS goals faster.

Well-designed and intuitive solutions that are available across any device via the cloud give you and your employees anytime, anywhere access to the VelocityEHS platform.
