# The VelocityEHS Platform Includes:

- **Air Emissions** — Perform complex monitoring, calculation and reporting to comply with Title V permit, emission inventory and GHG reporting requirements
- **Audit & Inspection** — Perform routine inspections, management system audits and Behavioural Based Safety (BBS) observations, and streamline compliance via regulatory content integration
- **Compliance Management** — Track permits, regulations, tasks and deadlines, and receive status notifications to make sure you're in compliance
- **Corrective Action** — Create, assign and track corrective and preventive actions (CAPAs) with escalating notifications to help increase accountability and improve employee performance
- **Incident Management** — Report incidents, near misses and hazards, perform root cause analyses and risk assessments, assign corrective actions, and conduct reporting and trend analyses to improve incident prevention
- **Industrial Hygiene** — Control every aspect of IH. Assess and manage workplace stresses, surveys and samples in support of occupation health and safety
- **Industrial & Office Ergonomics** — Manage ergonomic risks with self-assessments, training and evaluation, corrective actions and issue resolution, and detailed tracking and reporting capabilities
- **Management of Change** — Manage workflows, create and employ pre- and post-startup checklists, document process hazards, get automatic status notifications, and maintain an audit trail of all process changes
- **On-Demand Training** — Access virtual classrooms and nearly 100 interactive online EHS training courses, with administrative controls and customizable course content (PowerPoint, SCORM)
- **Performance Metrics** — Access comprehensive sustainability reporting, including GHG monitoring, leading EHS indicators and KPIs with built-in calculators and unit conversions
- **Reporting & Dashboards** — Enhance your EHS data visualization and analysis capabilities with user-definable metrics and real-time monitoring
- **Risk Management** — Run hazard studies, bowtie analysis, quantitative & qualitative risk assessments, verify controls and cost benefit analysis
- **Safety Meetings** — Schedule safety meetings, manage topics and agendas, document and distribute meeting minutes, assign tasks, create notifications and track ongoing issues
- **SDS/Chemical Management** — Utilize award-winning tools for Right-to-Know compliance, custom container labeling, chemical inventory management and regulatory reporting
- **Training Management** — Define training requirements, schedule courses, track training completion, and distribute notifications to ensure training compliance
- **Waste Compliance** — Simplify enterprisewide waste tracking and management, and provide an efficient and effective way to reduce compliance risk
- **Water Quality** — Upgrade your wastewater compliance program with advanced discharge point tracking, loading calculation, and discharge reporting capabilities

# The VelocityEHS Advantage:

## A True Cloud Solution

The VelocityEHS platform can be accessed anywhere, anytime from any mobile device, and our mobile apps give you the flexibility to deploy our solutions even when you're offline. And the cloud makes software updates easier. In fact, 99% of our customers are currently using our latest software release.

## Helping You Be Better

Eliminate the day-to-day burdens associated with running an effective EHS and sustainability program so you can focus on being a more effective EHS leader.

## Delivering Value

Designed with continuous feedback and industry insights from customers like you, our solutions are more affordable, quicker and easier to implement, and provide the simplest user experience for you and your employees.

## Centralize and Standardize

Access all of your EHS data, reporting and action items in one place. Our simple design and intuitive user-interface means that you spend less time using the software, and more time focusing on the overall safety of your facilities and your employees.

## Personalized Service and Support

Our expert team of Customer Success professionals take the time to understand your business' unique challenges and requirements to help you reach your EHS goals faster.
