

Office Ergonomics You Can Feel Good About

A comprehensive cloud software solution that allows you to easily and cost-effectively deploy web-based office ergonomics training and self-assessment to every employee in your organization.

Core Capabilities

- Self-Assessment
- Training and Evaluation
- Corrective Actions
- Issue Resolution
- Reporting and Tracking

Ergonomics Made Easy

Whether it's improved comfort and productivity, greater employee well-being or a stronger workplace culture, the benefits of office ergonomics are hard to deny. But relying on traditional, in-person training and expert consultation to manage your process can be a huge drain on your time and resources. You need a way to empower your people to take ownership of their own office workspace.

VelocityEHS Office Ergonomics software delivers expert-designed, web-based training and self-assessment to every employee across your organization for a fraction of the time and cost of traditional methods.

For employers, VelocityEHS gives you the power to prevent musculoskeletal disorders (MSDs) with an enterprise-wide approach that lets you monitor the process—all through one easy-to-use cloud-based system.

The ROI of Office Ergonomics

Musculoskeletal disorders such as back strain and carpal tunnel syndrome account for one-third of all workplace injuries and illnesses, and cost employers billions each year. VelocityEHS Office Ergonomics software offers a simple and effective cloud-based solution that empowers employees to reduce the risk of developing these issues.

For those who need a little more help, we offer direct access to our in-house team of certified ergonomists who will work with you to eliminate more severe or unresolved issues before they can result in injury.

With VelocityEHS solutions, you don't just get expert-designed office ergonomics software. You also get the expertise and support of an entire team of ergonomics professionals who are there to help when you need them.

VelocityEHS Ergonomics makes it easy for you to implement a best-in-class office ergonomics program across your entire organization.

Features & Benefits

Easy & Effective Self-Assessment

- User-friendly interface guides participants through training and risk assessment
- Self-corrective tips help solve common ergonomic issues
- Personalized reminders help address individual risks

Improved Productivity & Reduced Risk

- Overcome limitations of in-person training and assessment (e.g. time, distance, cost)
- Prevent injuries and enhance productivity with greater comfort and fit in the workstation
- Modular training and evaluation fits employees' busy schedules

Sophisticated Administrative Reporting and Tracking

- Manage your entire ergonomics program using a single web-based system
- Track and document employees' ergonomics progress and risks
- Access remote assistance and professional consultation

The VelocityEHS Advantage

Scalable to Any Size Enterprise

Our web-based ergonomics solution allows you to provide online assessment and training to thousands of employees across multiple facilities at the same time for less than it costs to deliver traditional in-person coaching programs at a single location.

Helping You Be Better

Eliminate the day-to-day burdens associated with ergonomics training, assessment and management so you can focus on being a more effective EHS leader.

Delivering Value

Designed with continuous feedback and industry insights from customers like you, our solutions are more affordable, quicker and easier to implement, and provide the simplest user experience for you and your employees.

Solving Complex Problems Simply

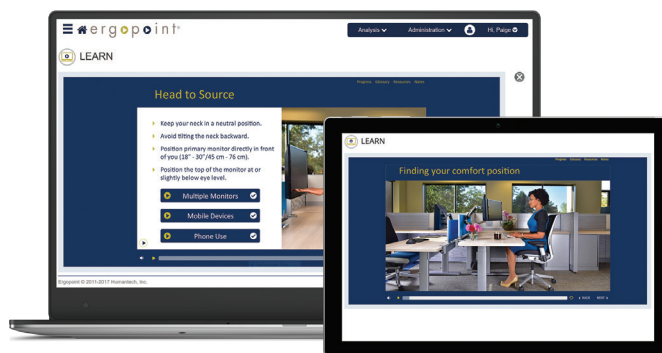

Our simple design and intuitive user-interface means that you spend less time using the software, and more time focusing on the overall safety of your facilities and your employees.

Providing Personalized Service and Support

Our Office Ergonomics solution is backed by our board-certified ergonomists and team of customer success professionals who'll give you the individual attention you need to help reach your EHS goals faster.
