

Action Management

Your Completed Actions Speak Louder Than Words

When you rely on workers outside of your direct control to complete critical EHS tasks, it's easy for things to fall through the cracks.

That's why you need a simple way to track which actions have been assigned and completed, and which actions are outstanding.

By centralizing visibility of action assignments and automating notifications, Action Management from VelocityEHS helps you ensure your people are involved, engaged and held accountable until the work get done.

Best-in-Class Action Management:

Are your action items painful to manage because they're spread out across multiple systems and spreadsheets?

It's time to centralize your actions so you have a single, full-view picture from all sources.

- Track task statuses, across all products, in one place
- Organize actions items by priority & due date
- Create, assign, manage & close tasks from a single dashboard
- Work online or offline, in office or in the field, via mobile app

Do you get tired of asking people that don't report to you to complete tasks they've been assigned?

Let our automated notifications and alerts help you hold people accountable without straining your work relationships.

- Automate action assignment notifications & reminders
- Auto-escalate overdue task alerts to supervisors
- Assign actions to anyone with an email in the system
- Engage & leverage workers outside of your direct team

Are you struggling with action reporting and getting people aligned on what to do next and why?

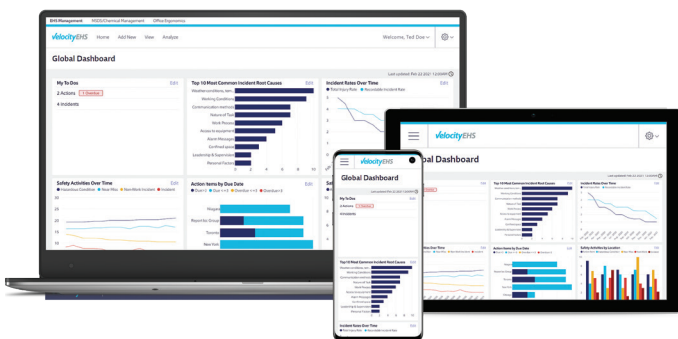

Ensure your people are on the same page by turning program visibility and reporting into one of your strengths.

- Monitor real-time performance via a configurable dashboard
- Measure & analyze success with custom & pre-built reports
- Spot and resolve issues before they spiral out of control
- Add transparency to why you're assigning actions
