

Operational Risk

# Get Control of Your Workplace Risks

Even if you worked hard to close the gaps between your operational plans and what actually happens on the front lines of your facilities — without the right system, risk barriers begin to degrade. Risk starts to accumulate, productivity stalls, and you face bigger threats: major accidents, and loss of lives.

**VelocityEHS Operational Risk** helps you identify, assess and eliminate risk to your people, property and the environment. With unparalleled visibility and control of risks, you'll drive enhanced collaboration and engagement in your company's risk management activities.

## Core Capabilities

- Hazard Studies
- Master Bowties
- Verification Scheduling
- Auto-Calculate Risk Ratings
- Master Controls
- Analysis: Cost-Benefit (CBA), Potential Loss of Life (PLL), Layers of Protection (LOPA), Qualitative & Quantitative
- Performance Standards

*Dyno Nobel reported a 53% decrease in their Total Recordable Injury Frequency Rate, and a 39% drop in their Significant Event Frequency Rate. These reductions were on top of demonstrated increases in employee efficiency and engagement in EHS.*

*Dyno Nobel Case Study by Independent Analyst Firm Verdantix*

## Simple Solutions for Complex Risk:

**Are your activities painful to manage because they're spread out across multiple systems and spreadsheets?**

**Simplified workflows help you to centralize and standardize risk management processes across your entire organization.**

- Unified view of risk causes, impacts & controls
- Conduct thorough hazard analysis using flexible studies
- Easily communicate risks and critical controls with bowties
- Drive employee engagement with org-wide visibility of risks

**Do you struggle to capture the right data, at the right times, with the right people?**

**Quickly uncover the day-to-day risk at work in your facility so you can start to get control.**

- Rapidly scale risk and control programs with master bowties
- Schedule risk reviews and performance standard reviews
- Monitor risks and verify controls in real-time
- Accelerate sharing of risk management best practices

**Are you spending all your time managing data instead of implementing and reporting improvements?**

**Realize your business objectives by managing risks and controls with less effort and more impact.**

- Generate PLL, LOPA and Cost-Benefit Analysis
- Transition from qualitative to quantitative with zero loss of detail
- Provide insight on risk reduction controls companywide
- Adhere to regulations like WHS, COMAH, OSHA PSM, ISO 45001
