

Ergonomics Software 

LET OUR SOFTWARE
DO THE HEAVY LIFTING.

PART OF THE VELOCITYEHS ACCELERATE® PLATFORM

What if there were a silent enemy lurking in your workplace, resulting in injuries to your people, absenteeism, turnover, and poor efficiency and productivity? There is, and it's called musculoskeletal disorder (MSD) risk. But, what if you could identify it and stop it before it can strike?

You can. Our 3D motion capture, working alongside **VelocityAI**, fuels better and faster MSD assessments that you'll get more out of when improving safety. In fact, you'll get AI-powered insights into risk causes and effective controls based on embedded expertise of human professional ergonomists.
