

Why Operational Risk Software?

Simple Solutions to Get Control of Complex Risks

Part of the VelocityEHS Accelerate® Platform

Without the right system to assess risks and verify controls at your company, what happens on the front lines of your facilities?

Risk barriers deteriorate, exposing you to serious threats. Inefficient, disconnected processes and outdated data collection methods hinder clear understanding of risks and controls across your workforce.

VelocityEHS Operational Risk helps you identify, assess and eliminate risk to your people, property and the environment, no matter your company's risk maturity. With more accurate data, plus unparalleled visibility and control of risks, you'll drive enhanced collaboration and engagement for more effective risk management across your company.

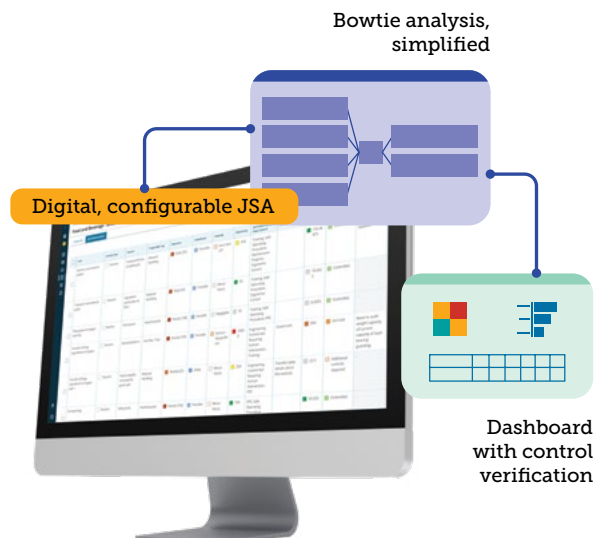

"Dyno Nobel reported a 53% decrease in their Total Recordable Injury Frequency Rate, and a 39% drop in their Significant Event Frequency Rate....on top of demonstrated increases in employee efficiency and engagement in EHS."

*Dyno Nobel Case Study by
Independent Analyst Firm Verdantix*

See What VelocityEHS Can Do for You

Core Capabilities:
