VelocityEHS®

Take control of your chemical footprint

Streamline regulatory reporting

Why Chemical Management Software?

True Sustainability Starts with Chemical Management

Part of the VelocityEHS Accelerate® Platform

Elevate your chemical management with machine learning-based capabilities that empower you to control & report on chemicals at the ingredient level.

VelocityEHS gives you a complete picture of your chemical footprint — the chemicals you have on-site, storage locations and quantities of each. And new ingredient indexing automations make it easier than ever to assess and replace products based on their ingredient's potential to cause harm to people and the environment. You'll be able to quickly identify chemicals in your inventory containing per- and polyfluoroalkyl substances (PFAS, aka "forever chemicals") so you can more proactively manage risks and meet regulatory requirements.

It's a comprehensive solution for indexing, tracking, labeling, and reporting on your chemicals. With Velocity, you're not just complying with hazcom regulations; you're reducing your company's risk profile and aligning business objectives with sustainable best practices.
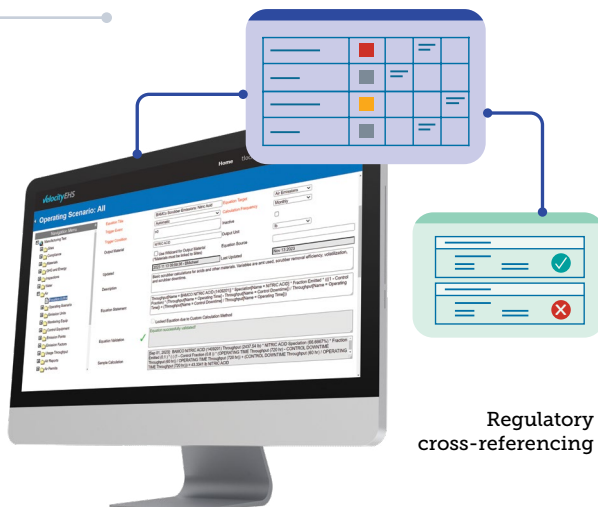

> "Flexible, convenient, easy to use and explain to the employees. Great time saver over the old paper system that we had. I am very happy with the experience; from building the file to the roll out to the employees."
>
> *Mike Fergurson*
> *Corporate Trainer, Cope Plastics*

See What VelocityEHS Can Do for You

Core Capabilities:

+ SDS management
+ Chemical inventory management
+ GHS secondary labeling
+ Regulatory reporting
+ Right-to-know compliance
+ Mobile access
+ Ingredient indexing
+ Ingredient level of concern
+ PFAS Indicator

Regulatory cross-referencing

Simplify hazcom compliance.
Ensure alignment with laws covering employee right-to-know access, container labeling, and chemical handling.

Improve chemical management.
Achieve greater container/ingredient-level control over the location, status, and risks of your chemical inventory.

Streamline reporting and regulatory cross-referencing.
Crosscheck products against critical international hazardous substance lists and simplify regulatory reporting.

Four Integrated World-Class Solutions to Help You Keep Your People Safe & Business Thriving

Safety
+ Incident Management
+ Audits, Inspections & Observations
+ Training & Learning
+ Compliance Management

Chemical Management
+ SDS Management
+ Container Inventory Management
+ GHS Secondary Labeling
+ Regulatory Reporting

Operational Risk
+ Hazard Studies (JSA/JHA, Bowtie Assessments)
+ Control Verification Assurance Monitoring
+ Management of Change

Industrial Ergonomics
+ Industrial Ergonomics
+ Office Ergonomics
+ 3D Static Strength Prediction Program (3DSSPP)

So Easy, Even Your Boss Can Use It
Eliminate complexity and drive adoption with a user-friendly design that ensures faster adoption, quicker time to value, and less time learning software.

End the Administrative Nightmare
Set your managers free to focus on EHS improvement with centralized and standardized admin that unifies users, roles, and location trees across all products.

A Single Source of Truth
Connect everyone from the shop floor to the boardroom with intuitive dashboards and customizable reports that give you clarity to make smarter, faster decisions.

Key Features	Velocity	Other Vendors
Integrated Platform: Access all your tools in one place, with one set of credentials	✔	?
User & Role Assignment: Set up your people and assign roles at one time	✔	?
Action Management: Track & manage actions across solutions in one place	✔	?
Single Location Tree: Set multi-dimensional location trees up once & deploy across solutions	✔	?
KPI Monitoring: View key EHS metrics across the organization	✔	?
Advanced Reporting: Access and manipulate data your way without the need to export	✔	?
Auto Workflows & Notifications: Ensure follow-through with automated alerts and emails	✔	?
Built-in Guides & Training: Reduce friction & time to value with in-app instruction for users	✔	?
