

Move Beyond Compliance with Better EHS Audit Software

Part of the VelocityEHS Safety Solution

Conducting thorough safety audits across multiple locations and teams can be cumbersome and error-prone, leading to safety oversights and non-compliance.

Without a streamlined process, critical safety issues may be overlooked, increasing the risk of accidents and legal penalties. Traditional auditing methods often fail to capture real-time data and trends, making it difficult to enact timely improvements.

VelocityEHS Audit software facilitates comprehensive audits with standardized checklists tailored to your specific industry standards and regulatory requirements. With features that allow easy scheduling, tracking, and reporting, you can quickly identify safety gaps and implement corrective actions, helping you to maintain a safe work environment and achieve compliance.

Core Capabilities:

- + Compliance system audits
- + Internal audits
- + Attach documents, photos & links
- + Customizable checklists
- + Action assignment and tracking

Features & Benefits

VelocityEHS Audits helps you easily centralize, standardize, and improve your audit processes.

- ✓ **Reduce risk across facilities and programs.**
 - + Streamline audits, reduce costs, and accurately identify risks
 - + Standardize audit protocols to drive EHS performance
