

Safety Inspection Software

Inspect, Protect, Perfect with Automated Inspection Software

Part of the VelocityEHS Safety Solution

Regular safety inspections are crucial, but manual processes can be time-consuming and prone to human error, potentially leaving hazards unaddressed and your operation at risk.

As an EHS professional, you need a reliable way to gauge your EHS and sustainability performance against any number of regulations, internal policies and industry standards

VelocityEHS Inspection software revolutionizes your safety protocols by providing a single, centralized solution for conducting and managing safety inspections. Features including automated scheduling, customizable templates, real-time data capture capabilities, and robust reporting facilitate consistent compliance, allowing you to spend more time focusing on what matters — being an EHS leader.

Core Capabilities:

- + Scheduling & assigning
- + Electronic checklists
- + Recurring inspections
- + Auto-escalating reminders
- + Enhesa & STP integration

Features & Benefits

VelocityEHS Inspections makes it easy to conduct inspections across locations in a single, centralized system.

- ✓ **Simplify inspection scheduling.**
 - + Schedule recurring inspections
 - + View current and past inspections
 - + Automate notifications & alerts
 - + Organize inspections by date
 - + Schedule, perform, and submit inspections, all in one place
- ✓ **Drive compliance and performance.**
 - + Easily build custom, standardized checklists
 - + Attach photos, documents, and links
 - + Use the VelocityEHS mobile app offline and in the field
 - + Access STP & Enhesa integration to auto-generate tailored checklists
- ✓ **Boost transparency with extensive & flexible reporting.**
 - + Easily measure worker participation and track results by location
 - + Automatically deliver reports to VIPs
 - + Prove regulatory compliance
 - + Display and analyze real-time inspection data with custom reports and dashboards
