

Job Safety Analysis (JSA) Software

Create a Standardized JSA Process That Works for You

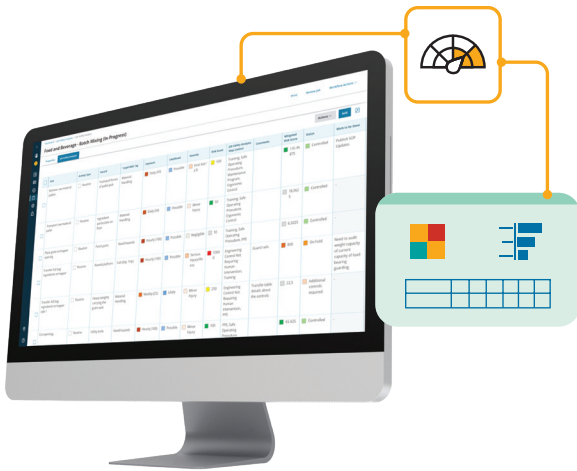

Part of the VelocityEHS Operational Risk Solution

If you don't know the hazards your employees face in their daily tasks, how can you keep them safe? Performing JSAs, keeping them updated and sharing results with workers is essential.

Efficiently manage the entire JSA process across locations to accurately identify hazards to your workers, easily verify controls and prevent dangerous and costly incidents from occurring.

VelocityEHS Job Safety Analysis software allows you to standardize and simplify this essential safety and risk management process to help you get more from much less effort.

Core Capabilities:

- + Configurable JSA template
- + Hazard and control trending
- + Base control library
- + Risk reduction action items
- + Standardized worksheets
- + Auto-risk calculation

Features & Benefits

VelocityEHS Job Safety Analysis helps you streamline the entire JSA process across locations.

- ✓ **Standardized JSA processes.**
 - + Reduce variability with a standardized JSA template configured to your organization's process
 - + Determine severity, likelihood, number of people involved and exposure
 - + Create a library of base controls with associated risk reduction factors
 - + Assign actions & automate notifications
- ✓ **Improved data accuracy & utilization.**
 - + Reduce data entry errors, create consistency, improve efficiency
 - + Identify trends in hazards and controls across all tasks and locations
 - + Auto-calculate risk score from entered hazards and risk reduction factors
 - + Get better insight into risk control strategy
- ✓ **Greater visibility & engagement.**
 - + Real-time status visibility of ongoing JSAs, hazard assessments and action items
 - + Customize dashboards to display specific safety metrics
 - + Boost collaboration with unlimited users and worksheets
