

Behavior-Based Observation (BBO) Software

Observe to Prevent — Elevate Safety with VelocityEHS

Part of the VelocityEHS Safety Solution

Spotting and addressing safety issues proactively can be challenging without a systematic approach, potentially leading to accidents and non-compliance.

Failing to capture and analyze safety observations efficiently means missed opportunities to prevent incidents, putting staff and operations at risk.

VelocityEHS Behavior-Based Observation (BBO) software streamlines the way your team records and analyzes safety data. This powerful tool facilitates real-time observation logging, ensuring immediate action on potential hazards. With customizable forms and data visualization, it makes it easy for your people to report on a wide-range of activities & environments, and in turn, implement preventive measures effectively. Drive engagement, proactively reduce risks, and transform your safety culture with VelocityEHS.

Core Capabilities:

- + Observation capture
- + Auto-escalating reminders
- + Online/offline mobile app
- + Custom forms

Features & Benefits

VelocityEHS Behavior-Based Observations makes it easy for your entire organization to contribute to operational excellence.

- ✔ **Improve consistency & efficiency.**
 - + Centralize observations to more effectively control the full range of workplace risks
 - + Collect observations in real-time
 - + View current and past observations
 - + Automate notifications and alerts
- ✔ **Drive compliance and performance.**
 - + Promote behavior-based safety (BBS) observations using a single, easy-to-use cloud-based system
 - + Import pre-built observation checklists or easily build custom, standardized checklists
 - + Instantly assign checklists to the right people across locations
 - + Access observations, even when offline with the VelocityEHS Mobile App
- ✔ **Boost transparency with extensive & flexible reporting.**
 - + Display real-time observation data with custom reports & dashboard metrics
 - + Track observation results by location and over time to identify trends and uncover opportunities for improvement
 - + Easily measure worker participation
 - + Automatically generate and distribute summary reports to VIPs
