

The Best Fit for Respiratory Protection

Respiratory hazards pose unique challenges in every workplace, requiring precise respirator fit tests to ensure worker protection and compliance with regulations.

Improperly fitted respirators fail to protect workers, and managing the required fit testing across multiple locations with different respirator types can be daunting and error-prone, especially when relying on manual processes.

VelocityEHS Respirator Fit Test software simplifies and accelerates the fit testing process, ensuring compliance and worker safety. With features that standardize test protocols, automate scheduling, and streamline documentation, this platform reduces testing time from minutes to seconds per worker. Pre-loaded OSHA-approved protocols and easy documentation ensure each test is accurate and compliant. Embrace VelocityEHS to enhance respiratory safety and ensure that every worker receives the highest degree of protection.

Core Capabilities:

- + Standardized RFT tracking
- + Pre-test procedures
- + Fit test scheduling
- + Qualitative and quantitative testing
- + Pre-loaded test protocols
- + RFT compliance

Features & Benefits

VelocityEHS Respirator Fit Test capabilities let you maintain a centralized RFT program and verify compliance with less effort, time & cost.

- ✓ **Save time with RFT capabilities.**
 - + Standardize respirator fit testing policies and activities across each of your locations
 - + Identify workers who are due/overdue for RFTs based on respirator type(s), exposure, and applicable standards
 - + Reduce test times by an average of 60% with pre-loaded RFT protocols
- ✓ **Gain total program control.**
 - + Centralize RFT management
 - + Verify proper fit for all respirator types (FFR, APR, PAPR, SCBA, etc.)
 - + Perform qualitative and quantitative RFT protocols
 - + Select from a complete library of built-in pre-test procedures, and customize to meet your unique RFT requirements
- ✓ **Streamline reporting & compliance.**
 - + Eliminate regulatory uncertainty with built-in, OSHA-approved RFT protocols
 - + Query and export RFT results, equipment, and calibration records
 - + Quickly search and filter RFT records to evaluate program status and verify compliance

What's your biggest challenge?

The VelocityEHS Team is Ready to Help You Succeed

VelocityEHS is your launchpad for operational excellence.

Leveraging AI and industry-leading expertise, Velocity ignites employee engagement, streamlines workflows, and elevates your strategy with data-driven insights.

Find out how easy your job can be when you're backed by an intelligent platform and a team of certified experts passionate about your success.

We have everything you need in one place:

- ✓ Expert solutions
- ✓ Automated workflows
- ✓ API & data access
- ✓ Best-in-class capabilities
- ✓ Native cloud software
- ✓ Mobile-friendly

The Velocity Difference

Outstanding EHS & ESG Outcomes

Trust your people to deliver expert-level results against a range of tasks using software built by certified EHS professionals.

10M
users worldwide

ActiveEHS Methodology

Anticipate, act, and boost resilience with our proprietary ActiveEHS approach that blends expertise with AI and machine learning.

140+
countries

Get Exceptional Support

Let our expert customer success team handle all of your EHS and ESG challenges seamlessly.

customer loyalty

What can we help you solve next?

Safety

- + Incident management
- + Training & learning
- + Emergency response
- + Audits, inspections, observations

Ergonomics

- + Industrial ergonomics
- + Office ergonomics
- + Physical demands analysis (PDA)
- + 3D static strength prediction program (3D SSPP)

Control of Work

- + Electronic permit-to-work
- + Contractor management
- + Qualification management
- + Induction & orientation

Chemical Management

- + SDS management
- + Container management
- + GHS secondary labeling
- + Regulatory reporting

Operational Risk

- + Hazard studies (JSA/JHA, bowtie assessments)
- + Control verification, assurance monitoring
- + Management of change

Environmental Compliance

- + Air emissions
- + Water quality
- + Waste management
- + eCompliance

ESG

- + GHG and energy management
- + Materiality assessments
