

Simplify Your Complex Industrial Hygiene Data

Industrial hygiene (IH) generates a lot of data — data that you ultimately rely on to protect the health of your workers.

Unfortunately, managing IH data using paper forms, spreadsheets or legacy database software limits your ability to analyze and leverage the data you've worked so hard to collect — potentially leaving your workplace safety in jeopardy.

VelocityEHS IH Sample & Equipment Management simplifies IH data management, providing rapid access and actionable insights to control workplace risks efficiently. Our software features rigorous data quality controls and allows direct database integration by labs and consultants, minimizing manual efforts. With our Global Chemical & OEL Database and integration with over 75% of North American IH labs, managing your IH program becomes more efficient and error-free, empowering you to focus on protecting worker health & safety.

Core Capabilities:

- + Global chemical/OEL database
- + Lab & consultant access
- + Laboratory SAG integration
- + Automated chain-of-custody forms
- + Similar Exposure Group (SEG) integration

Features & Benefits

VelocityEHS IH Sample & Equipment Management makes it easy to maintain a centralized program across your enterprise.

- ✔ **Simplify IH sample data entry.**
 - + Record, access, and analyze IH sample data within a single system
 - + Access auto-populated fields, pre-built templates, SAG integration, chemical/OEL database, smart QC features & more
 - + Instantly generate chain-of-custody paperwork
- ✔ **Enhance sample analysis.**
 - + Compare sample results against auto-updated library of chemicals, ACGIH TLVs, OSHA PELs, AIHA RELs & NIOSH RELs
 - + Give labs and consultants direct database access
 - + Reference quantitative data and statistics while performing qualitative exposure assessments
- ✔ **Streamline equipment tracking.**
 - + Track sampling equipment inventory, maintenance, and calibration records
 - + Verify sample accuracy and document compliance
 - + Eliminate paper files by adding related survey information & supporting media
 - + Calculate respirable silica PELs to meet MSHA standards

What's your biggest challenge?

The VelocityEHS Team is Ready to Help You Succeed

VelocityEHS is your launchpad for operational excellence.

Leveraging AI and industry-leading expertise, Velocity ignites employee engagement, streamlines workflows, and elevates your strategy with data-driven insights.

Find out how easy your job can be when you're backed by an intelligent platform and a team of certified experts passionate about your success.

We have everything you need in one place:

- ✓ Expert solutions
- ✓ Automated workflows
- ✓ API & data access
- ✓ Best-in-class capabilities
- ✓ Native cloud software
- ✓ Mobile-friendly

The Velocity Difference

Outstanding EHS & ESG Outcomes

Trust your people to deliver expert-level results against a range of tasks using software built by certified EHS professionals.

10M
users worldwide

ActiveEHS Methodology

Anticipate, act, and boost resilience with our proprietary ActiveEHS approach that blends expertise with AI and machine learning.

140+
countries

Get Exceptional Support

Let our expert customer success team handle all of your EHS and ESG challenges seamlessly.

customer loyalty

What can we help you solve next?

Safety

- + Incident management
- + Training & learning
- + Emergency response
- + Audits, inspections, observations

Ergonomics

- + Industrial ergonomics
- + Office ergonomics
- + Physical demands analysis (PDA)
- + 3D static strength prediction program (3D SSPP)

Control of Work

- + Electronic permit-to-work
- + Contractor management
- + Qualification management
- + Induction & orientation

Chemical Management

- + SDS management
- + Container management
- + GHS secondary labeling
- + Regulatory reporting

Operational Risk

- + Hazard studies (JSA/JHA, bowtie assessments)
- + Control verification, assurance monitoring
- + Management of change

Environmental Compliance

- + Air emissions
- + Water quality
- + Waste management
- + eCompliance

ESG

- + GHG and energy management
- + Materiality assessments
