

Waste Management Software

Cradle to Grave, LQG to SQG, Waste Compliance

Part of the VelocityEHS Environmental Compliance Solution

With regulators inspecting waste manifests on one side, and corporate auditors reviewing program costs and recycling rebates on the other, it is not a job for the faint of heart.

A compliance clock starts when hazardous waste is generated at your facility. If you're responsible for hazardous waste management at your facility, you'll need efficient ways to track the storage and disposal of each waste stream, including compliance with threshold limits and storage times for your generator class.

Our solution is designed with the needs of EHS professionals like you in mind. **VelocityEHS Waste Management** simplifies compliance, RCRA, and all aspects of your waste program, cradle to grave.

Core Capabilities:

- + RCRA reporting
- + Data management
- + Shipment manifesting
- + Waste container management
- + Customizable reporting
- + Real-time auto-alerts
- + Cost & rebate tracking
- + EPA waste code assignment
