

# SURFACE INCIDENTS FASTER. SEE RISK MORE CLEARLY.

PART OF THE VELOCITYEHS ACCELERATE® PLATFORM

Incidents, near misses, and hazards often go unreported because of barriers to access. QR Codes for Incident Management from VelocityEHS removes friction in safety reporting, empowering organizations to capture issues sooner, increase visibility into risk, and act faster with less effort. With a single scan, employees, contractors, and temporary workers can anonymously submit incidents quickly, with no login required. This increases engagement, improves data quality, and enables organizations to act faster on emerging risks.

### CORE CAPABILITIES:

- + QR code access
- + Easy mobile workflows
- + Expanded worker access
- + Integrated reporting
- + Automated alerts & action assignments
- + Improved incident reporting data
- + Scalable multi-site deployment

## SEE WHAT VELOCITYEHS CAN DO FOR YOU

### ELIMINATE BARRIERS. GAIN INSIGHT.

QR code access removes friction, making it easy to report incidents, near misses, and hazards in real time.

### ACCELERATE ACCESS. DRIVE SAFETY ENGAGEMENT.

Mobile-friendly forms simplify reporting and empower workers and visitors to capture hazards that might otherwise go unreported.

### CONTROL HAZARDS FASTER, WITH LESS EFFORT.

Submissions flow into Incident Management workflows, triggering actions automatically and improving visibility for faster decisions.

## FEATURES & BENEFITS

QR Codes for Incident Management removes reporting friction, expands access, and accelerates safety actions.

- + Single-scan QR code access, no login required
- + Intuitive mobile-based reporting forms
- + Instant access for employees, contractors, and temporary workers
- + Direct integration with Incident Management workflows
- + Automated follow-up and corrective action notifications
- + Improved data volume and quality
- + Designed for scalable, multi-site deployment
