

Safety Software 

**YOU'VE GOT THEIR BACKS.
WE'VE GOT YOURS.**

PART OF THE VELOCITYEHS ACCELERATE® PLATFORM

How do you get ahead and make real improvements to safety when you're fighting fires and playing catch-up, and you simply can't be everywhere at once?

VelocityEHS Safety makes controlling risk and taking preventive actions everyone's responsibility, so you're not alone.

With VelocityAI, you'll have AI-powered insights into Potential Serious Injuries and Fatalities (PSIFs), flagging high-risk incidents and near misses that may be hiding in the details of your reports. Complete incident investigations faster and with greater accuracy, automatically suggesting hazards, root causes, and corrective actions in the moment. Your team gains the data-driven insights needed to shift from reactive to proactive—and stay focused on continuous improvement.

“

It's so much smoother than what we had before... The solutions have tools built in that allow for email notifications, so everyone stays connected. Document uploading is easy, and so are reports... now I can slice the pie pretty much any way I want.
