VelocityEHS®

Lockout/Tagout (LOTO)

CONTROL HAZARDOUS ENERGY. BETTER PROTECT WORKERS.

PART OF THE VELOCITYEHS ACCELERATE® PLATFORM

Outdated procedures and disconnected systems make hazardous energy harder to control. Teams spend valuable time locating instructions and planning isolations manually, while inconsistent processes can put workers at risk and make compliance difficult to demonstrate.

VelocityEHS Lockout/Tagout (LOTO) helps protect workers, strengthen compliance, and reduce maintenance delays. Built on the Accelerate® Platform, it connects standardized procedures and isolation management, so teams can verify energy controls before work begins and maintain auditable records through completion.

CORE CAPABILITIES:

+ Digital LOTO Procedures
+ Procedure Version Control
+ Isolation Planning
+ Isolation Certificates
+ Role-Based Approvals
+ Electronic Signatures
+ QR Code Procedure Access
+ Isolation Status Visibility
+ Auditable Records
